

## ***RELEASE NOTICE***

30 September 2010

TO: DSN Document 810-005 Distribution  
FROM: DSN Systems Engineering Group (333F)  
SUBJECT: Release 23 for DSN Document 810-005

Modules 106, 202, and 304 for Document 810-005, Deep Space Network (DSN) Telecommunications Link Design Handbook have been revised and are being released. A summary of changes for these affected Modules is as follows:

106 Rev B and 202 Rev B: Updated to reflect change of DSMS to DSN.

304 Rev A: Deleted references to the decommissioned 26 m station, DSS-16. Updated performance information to match current capabilities and to reflect change of DSMS to DSN.

Since each document Module can be independently revised without affecting others in the series, the Revision E previously designated for 810-005 has become unnecessary and hence eliminated for these released Modules.

A copy of Modules 106B, 202B, and 304A can be obtained at the following URL:
